

EXPERIENCE

Grid Dynamics <i>Python Full Stack Intern</i> - Worked on SalesIntel, an AI-powered revenue intelligence platform built on Salesforce CRM: built the complete UI/UX, developed the AI chatbot, and integrated the frontend with the backend. - Delivered SalesIntel as the team capstone project, the Self-Evolving Salesforce Harness – a five-tier AI revenue intelligence layer built over roughly 3,900 real Salesforce Opportunity records. - Added Salesforce OAuth, an Apex/Flow stage-advance action, and a Slack bot integration to the platform. - Built Intelligent API Monitor, a FastAPI backend for multi-source API monitoring with real-time anomaly detection and alerting. - Built Personal Finance Dashboard, a Streamlit and SQLite application for transaction analytics and cash-flow reporting.	January 2026 – July 2026 Hyderabad, Telangana
Uber Wheelz Process, Concentrix <i>Data Advisor</i> - Managed and analysed operational data with Advanced Excel and SQL to produce recurring reports. - Maintained data accuracy for Uber operations across the Australia and New Zealand driver base.	April 2025 – November 2025 Gurgaon, Haryana
DeepThought Growth Management System <i>Data Analyst Intern</i> - Analysed large datasets and built Power BI and Tableau dashboards to track key growth metrics. - Automated data workflows in Python, SQL, and Excel, and ran predictive analytics for planning decisions.	July 2024 – November 2024 Hyderabad, Telangana
Bilateral Solutions Private Limited <i>Data Analyst Intern</i> Reported on BOT Shreyasi, an automated hiring assistant, evaluating bot accuracy on live call data with cross-validation error analysis in Python.	December 2023 – February 2024 Mandi, Himachal Pradesh
Energy Efficiency Services Limited <i>Data Analyst Intern</i> Extracted and visualised key metrics, audited datasets for anomalies, and optimised reporting workflows.	July 2023 – November 2023 New Delhi, India

PROJECTS

Intelligent API Monitor Python, FastAPI, SQLAlchemy, Pydantic, Streamlit. Ingests weather, finance, and earthquake APIs into a unified store, runs real-time anomaly detection and alerting, and serves streaming, paginated, exportable REST endpoints. Layered into models, schemas, CRUD, services, and routes, with 12 pytest cases and a live dashboard.	2026
Personal Finance Dashboard Python, Streamlit, SQLite, Pandas, Plotly. Tracks 100+ account holders across 6,000+ transactions with filterable KPIs, expense breakdowns, cash-flow trends, and CSV export, over a one-to-many account/transaction schema.	2026
Credit Card Financial Dashboard SQL, Power BI, Python, Excel. Real-time analytics on credit card transactions with integrated customer data, automated KPIs, and interactive visualisations.	Feb 2025
Credit Card Fraud Detection Python, Pandas, Scikit-Learn. Anomaly detection and logistic regression pipeline tuned for fraud precision and recall.	Jan 2024
